

No management fee. No CPM markup. *Every ad dollar... buys ads.*

Your ad spend goes straight to the platforms. Fully transparent, in accounts you own.

One flat monthly KNVRT fee is the only thing we charge. No matter how much you spend.

- \$0 management fee
- \$0 CPM markup
- Setup waived
- You own every account

WHERE YOU ARE VS. WHERE YOU NEED TO BE

Paid media is the entry point. Not the ceiling.

Most brands are stuck in the first box... and paying for it like it's a privilege.

Here is the way out, and where it can lead you.

*The bottleneck is not your budget. It is where your **intelligence** lives.*

DISTRIKT DIFFERENCE

3 things most agencies can't say.

We can, because we built it that way.

- One team. Not three.** → Media, analytics, and data live under one roof. Decisions move in hours, not quarters.
- Technology, not spreadsheets.** → Every dollar streams into one system, daily. Wasted spend surfaces immediately.
- Senior, not junior.** → The team that designs your system runs it. Including a CIO who built this exact infrastructure for P&G.

OUR PLATFORM

Not another chatbot.

AI agent workflows, built into your business.

*Other tools guess.
DISTRIKT knows.*

THE INTELLIGENCE LAYER

All of your marketing data flows through KNVRT

Spend, creative results, and conversion data live in one intelligence layer instead of scattered dashboards. KNVRT spots what is working, what is drifting, and where the next dollar should go.

THE HUMAN LAYER

People execute every optimization by hand

Our team reviews what KNVRT surfaces and makes every change deliberately: bids, budgets, audiences, and creative rotations. You always know what changed, when, and why, because there is a human in the loop.

HOW YOUR MONEY WORKS

Nothing hidden. Nothing marked up.

Every dollar buys ads. Every result buys intelligence.

\$0 Management fee on your media	\$0 Markup on CPMs or platform costs	1 Flat monthly KNVRT fee, scoped to your account	100% Of your ad spend goes to buying ads
--	--	--	--

Your ad spend goes straight to the platforms, in accounts you own and can see into at any time. We work out of whatever accounts you have, or advise you on creating and owning new ones whenever needed. Setup is waived, the engagement runs on a simple 3-month minimum, and your flat KNVRT fee is quoted before you commit. The only way we grow is if your campaigns do.

The old model has a name. It is called *arbitrage*.

In the media buying industry, arbitrage means trading against your client's budget: they buy your media low, bill you high, and pocket the spread. It is rarely disclosed and never itemized. Some agencies do it through marked-up CPMs, some through opaque fees, some through both. You cannot audit what you cannot see. Our answer is structural: we take no margin on media at all, so there is nothing to hide and nothing to audit.

THE DISTRIKT DISCIPLINE

Why DISTRIKT?

Budget follows evidence and data. Not opinion.

Because our incentives are actually aligned with yours. Most agencies get paid a percentage of what you spend, which means every honest test result that says "spend less here" costs them money. We don't take a cut of media at all. **No management fee and no CPM markup.** KNVRT is one flat fee regardless of your ad budget and monthly spending.

That single structural difference is what makes the rest possible. It allows us to scale or shift your budget toward whatever the data says is working, because we have nothing to lose when the truth points away from a certain media type or from spending more.

Our KNVRT fee is honest by construction, not by promise.

RESULTS FROM REAL DEPLOYMENTS

Real data. Real results.

HOME WARRANTY PROVIDER			NUTRACEUTICAL BRAND		
Couldn't identify where to put budget. Performance signals were unclear. Media spend was misaligned.			Drowning in data across Amazon, Shopify, multiple ad platforms. Teams reported for hours. Growth stalled.		
60 Days	120%	Sales Growth	90 Days	32%	Sales Growth
	\$500K+	New Monthly Revenue		340%	Return on Q1 Ad Spend
	84%	Increase in Ad Efficiency		92%	Less Time on Reporting
*Client investment recovered within the first month. Still active.			*Client investment recovered within three months of deployment.		

CLIENTS SERVED

Your media, minus the markup.

You tell us what you spend on ads and where.

We will confirm your flat KNVRT fee.

No obligation.

Worst case, you walk away knowing exactly what your media should cost.
